OBJECTIVE

ECE student looking for an embedded engineer role to work on firmware and IoT devices.

EDUCATION

B.E. / B.Tech, Electronics and Communication Engineering (ECE)
Sample Engineering College | Expected graduation: 2027 | CGPA: 8.1 / 10

SKILLS

Technical skills: Embedded C, IoT
Tools: Arduino IDE, Proteus, Keil uVision, Git

PROJECTS

Smart Home Monitoring System
IoT project with temperature and motion sensors that sends alerts to a mobile app.

Automatic Street Light Controller
Microcontroller based system written in Embedded C using LDR and PIR sensors.

ACHIEVEMENTS AND ACTIVITIES

- Completed embedded systems workshop.
- Presented IoT project at a college technical symposium.

DECLARATION

I confirm that the details given above are correct. (Sample resume prepared for testing the placement system.)
